

Cleaning the bean hopper and powder container

01 Open door.

02 Pull the locking slide all the way to the front.

03 Lift the bean hopper up. Empty the bean hoppers

NOTE**Soiling, mildew formation**

The bean hopper dries slowly and can continue to release moisture during fitting.

- Do not bring the bean hopper into direct contact with water.
- Use only a damp cloth for cleaning.
- Remove detergent residue.

04 Rub down the bean hopper with a dry cloth.

05 Attach the bean hopper.

06 Lift the powder container up. Empty the powder hopper.

07 Clean the powder hopper with a cloth. Use detergent, if necessary. Rub down the powder hopper with a dry cloth.

CAUTION**Cutting injuries/crushing**

The powder hopper's conveyor mechanism can cause cuts or crushing injuries.

- Exercise care when cleaning the powder hopper.

08 Clean the powder chute with a brush.

09 Attach powder container.

10 Push the locking slide all the way in.

NOTE**Impairment of function**

If the bean hopper and powder hopper are not locked correctly, the function of the coffee machine and the product quality may be impaired.

- Push the locking slide all the way in.

11 Close door.
