

Sego™

Fully Automatic Espresso Brewer by Bravilor Bonamat

Why Bean-to-Cup Brewers?

The future of bean-to-cup is here.

With 70+ years of coffee equipment manufacturing experience, the family owned Bravilor Bonamat continuously raises the bar for manufacturing excellence of equipment at affordable prices. Our Bean-to-cup equipment serves the most discerning customers in the office and hospitality space with freshly ground and brewed coffee and genuine espresso, and are a must-have in an operators portfolio. Bean-to-cup machines compete with the coffee-house experience and craft the freshest bean extractions and a richer beverage experience.

Why is the SEGO™ creating espresso based drinks?

- They are key to bringing the full cafe experience into workplace and hospitality locations.
- Bean-to-cup brewers create the freshest bean extraction and richer coffee and espressos, and a wide variety of speciality beverages.
- Espresso based beverages are trending with a 50% boost in consumption, thanks to young adults - nearly 30% of drinkers under age 40 prefer espresso.
- The high quality milk powders and premium chocolates of today are best coupled with a shot of genuine espresso.
- Specialty coffee drinkers are slightly heavier coffee drinkers compared to traditional coffee drinkers, with 2.8 & 2.6 average number of cups consumed per day, respectively.

Bravilor Bonamat's Innovative and Exclusive Solutions.

- Patented brewers, brew systems and parts that dramatically improve brewer performance and reduce maintenance and cleaning for back-to-back brewing.
- Our patented Valve-less Brewing System (V.B.S.) is designed to minimize failures reducing service calls for defective valves.
- Shared parts across all bean-to-cup equipment lowers inventory costs.

We have the right equipment portfolio for your beverage needs.

Bravilor's focus in the bean-to-cup category, with our current line-up and future product releases, is all about widening the opportunities for bean-to-cup equipment placement. All of our equipment features self-serve, touch screen operation, a low service rate, and a user-friendly interface; creating a great experience for everyone.

Sego™

Fully Automatic Espresso Brewer
by Bravilor Bonamat

Sego™ Bean-to-Cup Brewer

Bring this elevated experience directly into the workspace. Creates exceptional quality, cafe-style beverages.

Unique to Bravilor Bonamat, the Sego™ is a versatile super-efficient bean-to-cup brewer with 30 drink options in a small, yet mighty machine.

Our patented CIRCO™ brewer delivers espresso based beverages at 9 Bar pressure, similar to high-end and premium priced espresso equipment, but at a fraction of the cost.

SEGO™ 12 Highlights and Features

Sized just right!

Accounts with a 74 persons or less users represent nearly 60% of locations served by OCS operators.

This offers an enormous potential for smaller and more cost effective equipment like the SEGO™.

At just 23" high, and value priced, the SEGO™ bridges the gap between cup, pod, single cup solutions and larger bean-to-cup brewers. It offers tremendous versatility and a true bean-to-cup experience.

- Grinds up to 16 grams of coffee per brew, delivering a great espresso every time.
- ADA compliant: placed on a maximum countertop height of 34"
- The SEGO™ 12 is a recent winner of the "Readers' Choice New Product of the Year Award", *Automatic Merchandiser*.
- 6 oz. to 10 oz. cup clearance.

**SEGO™

SEGO™ 12 Highlights and Features

Easy to program, operate and clean so you can keep coffee flowing all day, every day.

Patented CIRCO™ Brewer

Holds up to 16 grams of coffee per brew and is the most service friendly brew group in the market. Delivers traditional espresso based beverages at 9 Bar pressure, similar to high-end & premium priced espresso equipment, but at more affordable pricing.

Patented Water System

Designed to minimize common failures, reducing service calls for defective valves and on-site descaling, so you can avoid costly downtime.

Service Friendly Features

Helpful instructions and guides are built into every SEGO™. Additional support information is available online in every format.

N.S.F. Certified Soluble Canisters

Easy to disassemble by hand, clean and re-assemble. Breakdown for 100% dry and wet cleaning. All plastic is BPA free and Teflon™ infused to reduce clogging.

No Coffee Packaging Waste

The SEGO™ uses no filter paper or any other single use by-products other than coffee. No more wasteful, non-reusable, non-recyclable plastic or aluminum cups or packaging.
